Your instructors suggest that a bag of soft treats be brought to each class. We suggest an inexpensive fanny belt pack to carry the food while training. The treats should be SOFT, small bite size pieces. The purpose of being soft is so that your dog can swallow it quickly. Ideal food treats are small pieces of hot dogs, string cheese, liverwurst, or soft cat food. Do not bring small pieces of his kibble as it is not a “special treat” . Also do not bring dog biscuits as they take too long to chew and are not soft. Use his special treat ONLY when training.

Why are we using food? Food is a positive motivator and reinforcement when training your dog. In class, it is to be used to shape the behavior that is paired with a “command word”. It is also used as a reward for doing a good job. Food is never used as a bribe. It is a useful training tool that will eventually be eliminated from training so that your dog does not become dependent on it. Food should become a secondary reward.

You can also bring with you a “special” training toy that your dog loves and is motivated by. This toy should ONLY be used for training and then put away. This will maintain its high level of desire. Do not allow your dog to play with this toy at home.

FOR YOUR SAFETY:

NO FLEXI LEADS

NO Flip flop footwear

NO Sandals

No High heels

We look forward to meeting you and your companion.
